

New high efficiency vehicle developed for today's South African consumers!

Touching Tomorrow Today in South Africa!

Sam and "Snowy", one of Youth For Christ's young missionaries. When Snowy was asked how he got his nickname, he told us that his aunt called him that because his skin was the lightest in the family! Hmm, I wonder what she would have called Sam!??

Dear Friends,

As we help to train young missionaries and share the Gospel together at prisons, churches and high schools here in South Africa, we are actually touching tomorrow today. "How is that possible, Sam?", you might ask.

Well, as we call people to repentance and intimacy with Him, the future is actually changing and becoming just a little bit more aligned with God's plan. This is what Jesus meant when He taught us to pray, "Thy will be done on earth as it is in heaven."

We are actually reaching into the future by faith, not unlike a farmer who plants seed with the intention that his yet un-grown crops will be life sustaining one day. Not only will the crops provide food, but also additional seed which will in turn grow even more crops after that!

I know that it is easy to get discouraged when we hear the world news or look at the financial markets, but if you were to meet the young (19-23 year old) missionaries that we are helping to train, the future would look a whole lot brighter to us all! Even though many of them have been through very difficult situations, God has invited them to give their lives in His kingdom's service (Matt. 10:39), and they have accepted the challenge!

Let's have the courage to trust God the way these South African young people do; loving God with all of their heart, soul, mind and strength!

Love from Sam, Rita & Family

When in Africa, remember to check your vehicle height before attempting to drive under elephants!

Schedule for 2012:

February 1-14: Continuation of ministries in **South Africa:**
